

# Are you able to help a neighbor in need?

Unemployment and unexpected expenses are just some of the many reasons why households may fall behind on their energy bills. You can help these individuals when you contribute to Franklin REC's RECare Program.

The RECare program is Franklin REC's voluntary, member-funded energy assistance program that offers financial relief to eligible co-op members during the winter moratorium. The program is facilitated by the community action agencies affiliated with the cooperative, and recipients must apply through their local community action agency.

Members may choose to pledge contributions to RECare in dollar increments on a monthly basis with their electric bill or make a one-time donation by completing the reverse side of this insert and remit with payment or visit Franklin REC's website and submit online.

# RECare is Members Helping Members

RECare will provide funds to be distributed by local community action agencies to help Franklin REC members pay winter heating bills and assist in weatherization of homes of low-income consumers. You may make a one-time contribution or a monthly pledge, which will be automatically added onto your electric bill. Even a dollar-a-month will help.

- I will contribute \$\_\_\_\_\_ per month. I understand this amount will be automatically applied to my monthly electric bill.
- I will make a one-time contribution of \$\_\_\_\_\_ to RECare. My check is enclosed.
