

FAQ:

What if I move:

- Your subscription(s) can be transferred to a different account/location within Franklin REC's service area in your name, or they may be assigned to another Franklin REC membership of your choosing.
- If you have no one to assign the remainder of the subscription(s) to, the cooperative may purchase back the remainder of the subscription (s) at a reduced buy-back price.

How many subscriptions are available?

There are 300 subscriptions available. The array has a total of 508 panels.

What amount of bill credit can I expect?

Bill credits will be based on the actual monthly production of the solar facility, but are expected to produce approximately \$61 worth of bill credits per module during the first year. Subscribers will see larger bill credits in months that produce more energy and smaller bill credits in months that produce less energy.

How many subscriptions can I buy?

Members may purchase multiple subscriptions. However, we want to ensure that other interested members have the opportunity to subscribe:

- Members may purchase subscriptions equal to their average usage over the last three years.
- Up to a maximum of 30 subscriptions per member.

Any unused credits will expire April 30th of every year, so please purchase wisely.

How much energy do I use?

Members can review their energy use on their bills or within the SmartHub application.

I would like to purchase _____ subscriptions.

Please mail the completed form to:

Franklin REC

PO Box 437

Hampton, IA 50441

ABOUT THE PROGRAM:

Subscription price: \$588/module thru 4/30/2022.
(yearly pricing on back of brochure)

Module info: Each module is 340 watts and produce approximately 380 kilowatt-hours (kWhs) of electricity annually. There are 508 modules per array.

Community Solar Program Ends 2042

- Each module is expected to create approximately \$1,200-\$1,500 worth of bill credits over 25 years.
- All subscriptions will expire on (04/30/2042)
- Subscriptions are available on a first-come, first-served basis, and will be reserved once the subscription fee and the signed contract are received.

WHY COMMUNITY SOLAR?

Subscriber Benefits:

- Support use of renewable energy programs
- No maintenance or repair responsibilities
- No additional insurance costs
- Enjoy the benefits of solar without having it installed on your property or roof
- See real time energy production online
- Convenience of monthly bill credits!
